Printers on a Strike.

Indianapolis, February 1.—The Typographical Union last September decided to raise the scale of prices from twelve to twenty-five per cent. over the war rates. This was done in spite of the protest of the publishers, and after the panic was suspended. Last night they again voted the increase, which, being refused by the publishers, all the printers in the Journal, Sentinel, News, and the Indianapolis publishing company's offices, struck to-day. The papers will issue to-morrow as usual, though in a reduced form.

In 1836 the establishment sold for ten thousand dollars; in 1835 it brought fifty thousand dollars; in 1872 the value of the office was one hundred and sixty thousand dollars, and at the present time the entire establishment is valued at something over three hundred thousand dollars. Meeting of Irou Manufacturers.

PITTSBUBG, January 31.—A large neeting of prominent western fron and nail annufacturers was held here yesterday. After considerable discussion the seiling rates or nails were advanced twelve-and-a-half tents per keg. The Iron trade was generally liscussed, embracing a review of the business luring the past season; although one and hree-lanths below last year's rates, the demand is about the same. Pig-iron is five dollars higher per ton. It was thought best not to change selling rates, as an advance on merhant iron would encourage one on ore and pig-iron. Stock in the hands of dealers is light, and the financial condition of the country would not permit of another advance. It was the general impression that if the price of the raw material was not reduced from firms would be compelled to close their mills.

St. Louis has been revived, agree to support it provided it gives a promise of fairness. Ex-Governor P.O. Hebert, of Louisiana, has written a letter to senator Bayard, objecting to a new election in that State, in which he says that a new election cannot right any wrongs of which complaint is made. There is no doubt a great outrage was for which the present government of Louisiana was installed, but what is now proposed, that congressional an end of temporary expediency, would set a precedent under which the present government of Louisiana has written a letter of which complaint is made. SPRINGFIELD, ILL., January 31.—The board of supervisors of Macoupin county appeared before Judge Treat, in the United States district court, to-day, to answer the charge of contempt of court in refusing to make a tax levy ordered by that court to meet a judgment on the courtbouse bond coupons. Ex-Governor Palmer, the bondholders' attorney, moved titeir commitment to jail for contempt in refusing to obey the writ of peremptory mandagous. The supervisors, all of whom were present, plead no intentional disrespect to the court, but on consultation affirmed their refusal to obey the writ by making the levy within thirty days, as the judge suggested, and finally refused to make the required levy at all, asserting themselves willing to meet the punishment of the court. Judge Treat expressed regret at the necessity for proceeding to extreme measures, and deferred entering final judgment until after consultation with Judge Drummond, stating, however, that it would be rendered this term. The most prominent citizens of Macoupin county were present and applauded the supervisors in carrying out the expressed will of the citizens of the county. The Elections-Movements and Opin-Something about One Hundred and ions of Gladstone, John Bright, Ten Thousand Dollars,

It is a mat'er of some interest to the public to know exactly how a recent transaction of Governor Powers's was finally consummated. It looks quite plain on its face, but there might be a cat in the meal-tub somewhere, and the late auditor, in his report, appears to know as little about it as the outside world—that is, he has an unofficial statement that, without his agency, the small sum of one hundred and ten thousand dollars passed into the State treasury, to the credit of the New Orleans, Jackson and Great Northern railroad, and the very same day passed out again, as due and payable to the Vicksburg and ship Island railroad company. Would it not have been the better way for the vouchers in this little business to have been made public with other financial measures of the State, at the close of Governor Powers's term of office? Of course we take it for granted that the money may have been payable to the recipient of it, but we claim that it should have been received in an open and legitimate manner, and through the legitimate channels, by a warrant of the auditor on the ireasury. London, January 31.—A meeting of the liberals, who support Thomas Hughes, was held in Marylebone last night. Hughes delivered a long address, in the course of which he declared himself in favor of a cooperative association of workingmen. Professor Baldwin Smith also addressed the meeting, giving his cordial support to the views of Hughes. The differences between Hughes and Paniel Grant, who was nominated by the other branch of liberals Wednesday night, continue, making a return of a conservative candidate probable.

Action Smes Ayrton addressed a large and disorderly assemblage in the tower of Hamlets last evening. Ayrton was compelled several times to stop speaking, owing to the disturbances. The conservative meetings in Greenwich last evening were attacked, and the candidates were compelled to cease speaking. There was also a very disorderly meeting in Deepford last evening. There are apprehensions of disturbances in Greenwich. This evening when Gladstone speaks it is said that the thoroughfares are to be closed one hour before he commences, and that the troops will be confined to the barracks. IRON MOUNTAIN ROAD.

The Prospect at Helena-What the Southwestern Construction Com-pany Promises.

From the Helena (Ark.) World. Colonel Bailey left for Lee county this morning to set things in motion for the construction of the Iron Mountain railroad through the territory of our sister county. We are assured by the active movements of the construction company, that they mean business. We are reliably informed, if our Lee county friends will come to time immediately and shoulder their portion of the weight, that work will be commenced in earnest, and a large force thrown upon the survey at once. Upon Colonel Bailey's return within a few days, we will give our readets a view of the situation, and the prospects from an official standpoint.

From the Heiena (Ark.) Independent. a notice of will, issued out of that court, was served on the premier previous to the dissolution of parliament,
Mr. Gladstone, in his address at Green wich this atternoon, replied to various accusations that had been made against him by conservatives, and defended his use of the patronage attaching to his office.

Disraell also addressed a large assemblage of Archivertoday. He said the disraption From the Helena (Ark.) Independent.]

Disraeli also addressed a large assemblage at Aylesburg to-day. He said the dissolution of parliament was the act of the black treachery which Gladstone learned from the tactics of the Ashantees. The financial proposals of the government were not only a bribe to secure success in the coming elections, but were fallacious and unjust. Deficiency would be caused by the promised remission of taxes, which would make necessary even more vexatious and burdensome taxation. The attention of the government to foreign politics has led the nation into costly wars, ignominious treaties, and sham arbitrations.

John Bright spoke to an enthusiastic meeting of his constituents in Birmingham to-Colonel Bailey, president of the Southwestern construction company, who, together with considerable material, has been bound up with ice and low water between Cairo and St. Louis, arrived on the Capitol City Tuesday. We had a short interview with him, but he seems retieent about making any rash promises about what he is going to do, as he thinks the best way to satisfy the popular claunor, is to give them occular demonstration of his intentions. We found out enough, however, to feel assured that they certainly mean business. A considerable lot of supplies, implements and tents, suitable for the use of workmen, have already arrived, and the company has rented the building of Mr. Bumpass, on the corner of Main and Perry streets, for an office and storeroom; and enough iron to commence on has been bought and will be shipped in a very short time. Hands are at work, and the road for ten miles is nearly ready for the iron. We will refer to the subject more fully in a few days. John Bright spoke to an enthusiastic meeting of his constituents in Birmingham tonight. He devoted much time in vindication of the legislation obtained by the Gladstone ministry, which legislation Disraell, in a recent speech, characterized as harrassing, and recapitulated various abuses which it had abolished.

TENNESSEE.

Subernatorial and Senatorial Candidates-Messrs, Stephens, Milion Brown and Campbell.

From the Bolivar Bulletin. soon to devolve upon the legislature of our state is the electing of a United States senator to fill the place now occupied by W. G. Brownlow, whose term of office expires in 1875. Prominent among the distinguished gentlemen suggested for this eminent position is the name of Hon. William H. Stephens, of Shelly county, and to our mind there is none more deserving than he. It would be a pleasure to us and to thousands of citizens all over Tennessee to know that a man so worthy of more deserving than he. It would be a pleasure to us and to thousands of citizens all over Tennessee to know that a map so worthy of every confidence as Judge Stephens would consent to the use of his name in connection with senatorial honors; and if he will only consent to let his friends throughout the State enlist under his spotless banner, Tennesseans may yet do what at one time was thought an impossibility—redeem the seat so damnably digraced by Brownlow. We cannot shut our eyes to the fact that this great State of ours is poorly represented in the upper hall of our national legislature, and it is high time our people were easting about for some one upon whose shoulders can be confidently reposed their chief representative interests. Search the State over, take up each worthy man's record, private or public, soldier or citizen, and the superior of the gentleman whose name heads this article cannot be found. As a lawyer, he is the peer of the best in the land, while his faultless principies, christian character, and benevolent qualities, have endeared him to each and every one who has ever enjoyed his acquaintance, or heard the big truths dropping from his truthful lips while defending the right against the wrong, with W. H. stephens in the senate, the great interests of our noble but sorely-afflicted old State will never be neglected.

State will never be neglected. It does seem to us that the western portion of the State is clearly entitled to the next governor. Not that the place of residence or sectional influences have any bearing upon the administration of our laws, but because, that we, as a representative portion of the State are smittled to a legitimate share of the office of State. Let us then cast about us and select from our midst some one worthy to receive our support and able to fill that responsible position. Let us be guided by no personal or selfish feelings, but rather let us select one whose well-known abilities, consistent record and unsuilled character will unite to his support the entire Democratic and Liberal vote. Among the many names that have been, and that may be, suggested, none seems to us a more proper person for our choice; none more worthy to receive our support, and no one better quali-From the Trenton News.]

person for our choice; none more worthy to receive our support, and no one better qualified to discharge the duties of that office than our distinguished neighbor, General A. W. Campbell, of Madison. A gentleman of rare legal learning and abilities, possessed of no ordinary degree of talents, and a mind carnestly alive to the wants and necessities of our situation. He has had every advantage that a man could have had to commend himself to the suffrage of our people. His qualifications are beyond question. His past record is a page without a blur—a book without a blemish. Ever a consistent statesman, a faithful counsellor and a galant soldler, he has never failed to defend, with honest convictions and able zeal, the interests of the rights of Ten-Hon. Jas. R. A large meeting was held at the merchants are tennial communities of the control of been presented to the public through the different journals of the State, as suitable candidates for governor, all, or nearly all of whom have a deserved political or military notoriety. Middle and East Tennessee concede the right of West Tennessee to the next governor. We should be careful upon whom we center to fill that, the most important position in the gift of the people of the State. We need now, more than ever in the history of the State, a man of undoubted integrity, sound political principles and marked financial abrillities at the helm of state, to prevent the old ship from sinking under the billows of taxation, brought upon us by political trickaters, pet military heroes and party favorites. A few more such legislatures and governors as we have had since the war, will bankrupt the State and bring financial ruin upon the people. How are we to avert the calamity? Most we select a man because he has made a good soldier, a sound Democrat, or an unflinching Radical? No; If we were out of debt, and had a treasury full of money, we could not afford it. Duty is plain; we must have a man who cannot be bought and sold, whose past record is clear beyond question, whose financial ability is equal to the requirements of the position, and who will stand by us and work day and night for the honor of our giorious State and the welfare of the people; one who has been endowed by nature with more than ordinary attainments, particularly in a financial sense, and by extraortinary giffs, can assist in extricating the struggling masses from the crushing weight of particularly in a financial sense, and by extraortinary gifts, can assist in extricating the struggling masses from the ornshing weight of taxation that rests upon us. Mr. Editor, after serious thought upon this subject, and all vital points considered in this connection, in my humble judgment Hon. Milton Brown, of Jackson, is the man for the place. His success as a railroad man is evidence of great financial ability. His political record is pure, and has given entire satisfaction throughout the State. Further comment is unnecessary. Let us have Judge Milton Brown for governor.
